

TEKsystems Global Services

Life of Freshers - The First Year

Presented by: Ritwik Brahma & Arghadeep Chakraborty

Date of Presentation: 12th August, 2020

The Journey From a Campus to a Corporate

The Similarities and the differences

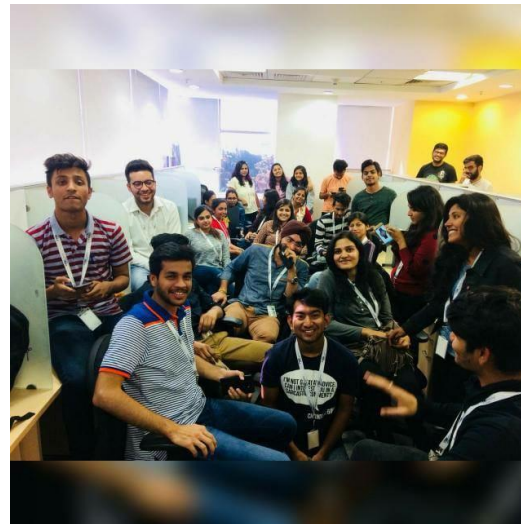

- Developing Interpersonal and Team skills
- Developing Time Management skills
- No specific Syllabus
- Daily Evaluation
- Smart Goal setting
- Upholding the work standards
- Seeking help from subject matter experts
- A healthy work life balance

The Internship Program

To let you ease into the corporate world

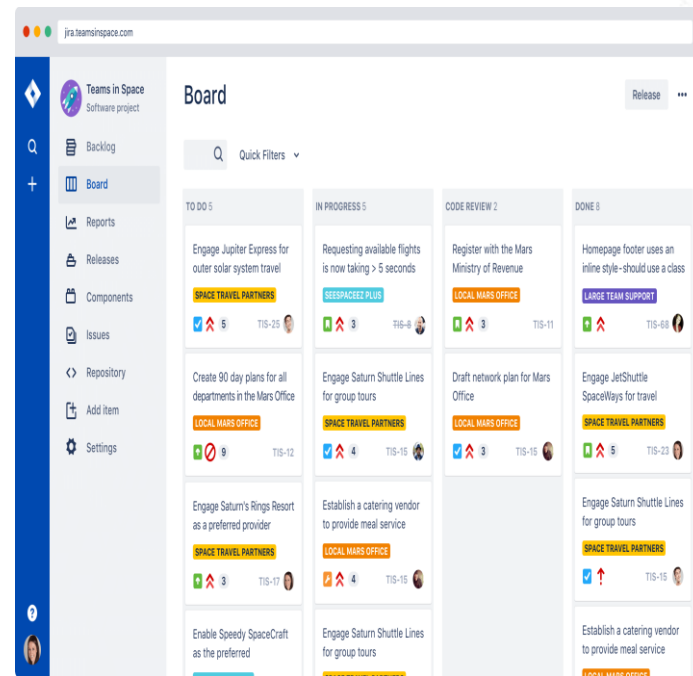

- Understanding how a real-world application is built
- Working with a 10 members team under a team leader/mentor
- Working with latest technologies
- Dedicated sessions for knowledge sharing
- Each of the team members with dynamic roles and responsibilities
- Understanding the true meaning of FULL STACK
- Tons of fun and frolic too

The Tools of The Trade

SCRUM, JIRA, GIT etc.

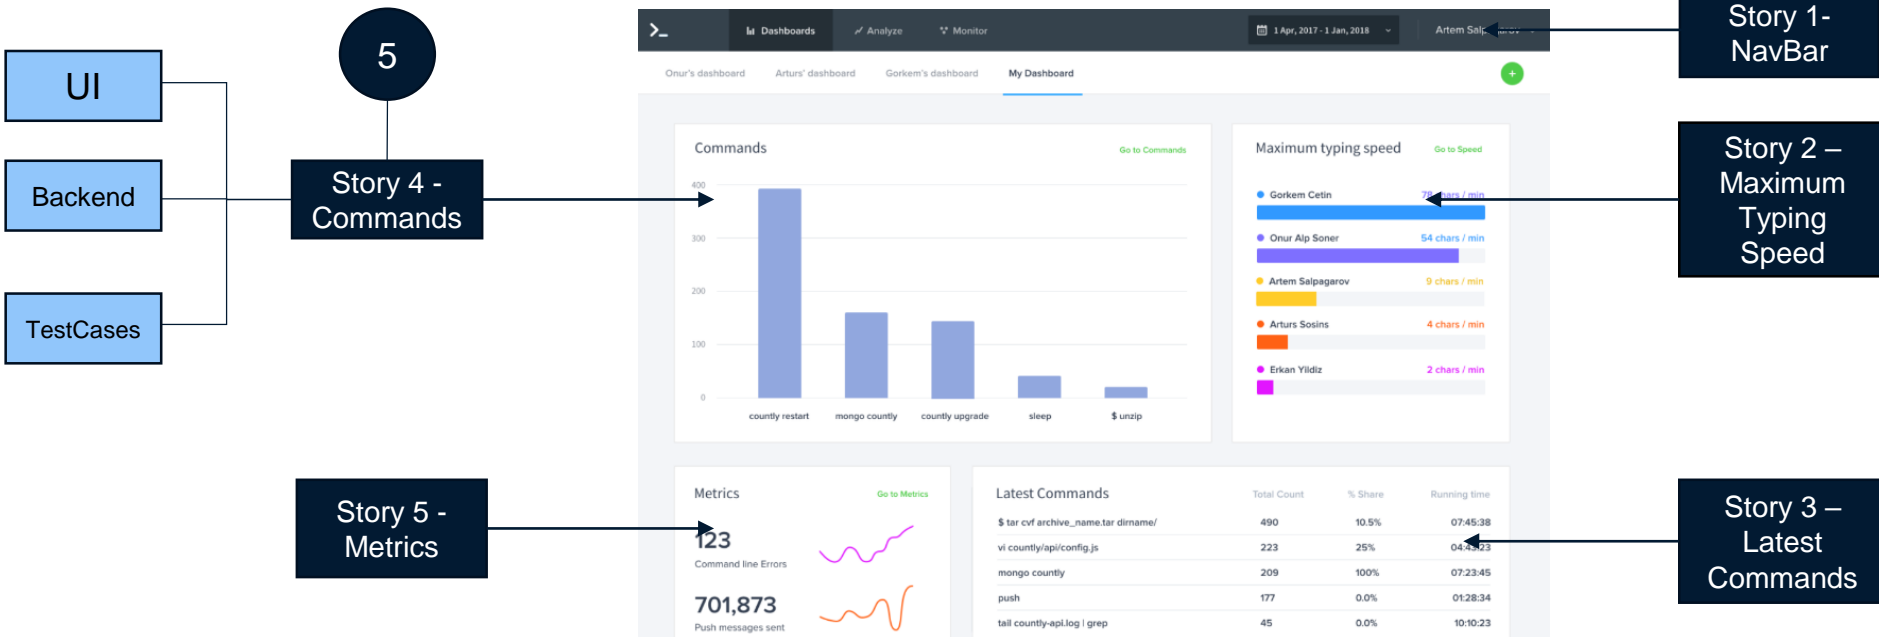

- Scrum is a framework that helps teams work together. Much like a rugby team (where it gets its name) training for the big game, Scrum encourages teams to learn through experiences, self-organize while working on a problem, and reflect on their wins and losses to continuously improve.
- Jira Software is built for every member of your software team to plan, track, and release great software.
- Git is a distributed version control system designed to handle everything from small to very large projects with speed and efficiency.

Dashboard - A Use Case

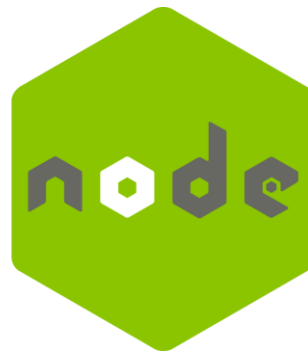

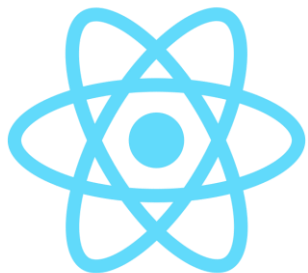

Epic - Dashboard

How the tools help?

The Vast World of Evolving Technologies

And the amazing exposure to them

Jenkins

Working with a “CLIENT”

Some tips and tricks

- Be confident about your skills and area of expertise
- Own Responsibility
- Transparent and clear-cut communication
- Don't be overwhelmed by just the experience factor
- Be efficient and set realistic expectations
